

Cirrus Internship Opportunities

Cirrus offers college students opportunities for internships in various departments throughout the organization, such as Engineering, Product Assurance, Manufacturing Engineering, Flight Operations, and Business. Students will have the opportunity to work with current staff to gain work experience in their chosen field.

- Current openings will be posted with a complete job description. Visit “[All Open Positions](#)” tab to find a complete listing of current internship opportunities
- Paid Intern positions are available during the fall, spring, and summer semesters of the school year.
- Application Deadlines are as follows:
 - Summer internship: February 29
 - Fall internship: June 1
 - Spring internship: November 1
- **Qualifications (dependent upon department)**
Currently pursuing a Bachelor’s or Master’s degree in related field and completion of at least one area specific course. Experience using Microsoft Office. Critical thinking skills and ability to work both independently and in a group environment required.

Interns may be offered a permanent position with Cirrus upon graduation depending upon staffing needs of the organization and strong performance as demonstrated by the student.

To be considered for an internship with Cirrus, please submit your application/resume to the Human Resource Department.
